NanoMalaysia Berhad

SIRIM QAS International

A Company Limited by Guarantee mandated for the commercialisation and industrial deployment of nanotechnology in Malaysia

A wholly-owned subsidiary of SIRIM Berhad, Malaysia's leading certification, inspection and testing body

Owner of the programme

Operator of the programme

NANOVerify Programme

BE TRUSTED, BE VERIFIED

What is NANOVerify Programme?

The NANOVerify Programme is a voluntary certification programme for processes and products with claims of nano-elements in the range of 1 to 100 nm (nanometre).

"NANOVerified" is the mark that will be awarded to processes and products upon successful completion of the NANOVerify programme.

Why certify nano element(s) in your product?

Nano-certification programs available worldwide

Case study on the available nano-certification programme

Market research indicates nano-certification helps certified companies to increase their:
